

THE CLUB OF GNU

Futurists look ahead and behind

Two things about the future seem clear: that our present ideas about it will in part determine the kind of future we have; and that "the one choice that is not open is to go on the way we are."

On the opening day of this week's futurology symposium, presented by New College and its newly formed Club of Gnu, a responsive audience joined the panel speakers in considering what may be in store for us all.

Marshall McLuhan abundantly fulfilled his own opening prophesy that "the future belongs to the one-liner", and generated aphorisms at the drop of a crystal ball. He advised a look in the rear-view mirror to see what's coming, and maintained that the future is always present. Compared with the "fantastic" present, however, "the future is a simplistic, banal world where a few concepts dominate".

Dr. Jim Dator, who has taught courses in "futuristics" at the University of Hawaii since 1967, argued for the importance of grass roots involvement to avoid "colonization of the future." There are many people, he claimed, actively inventing the future the way they want it to be, and "if you're not concerned about the future don't complain when the future becomes the present and is not the way you want it to be." Dr. Dator is spending two years in Toronto to develop a TV series on the future with the Ontario Educational Communications Authority (channel 19).

The Rev. Gregory Baum of St. Michael's College agreed that predictions enter into the present and affect the kind of society we create. As an example, he expressed concern that the government's recently stated anxiety, about an open immigration policy and the problems of integration in the future, might itself lead

First session of a week-long seminar on "The Future", sponsored by New College and the Club of Gnu, drew a packed audience in Wilson Hall common room (above). To the right: Prof. Jim Dator, University of Hawaii; Prof. Marshall McLuhan, Principal A.D. Baines, New College; the Rev. Gregory Baum, and Sir John Lawrence, Oxford.

Ombudsman plan success in ASc & E

A special student-faculty Ombudsman committee formed three years ago by the Faculty of Applied Science and Engineering to hear student complaints, is working "remarkably well" says its chairman, Prof. F.C. Hooper.

According to its preamble the Ombudsman committee was constituted so that students "may challenge any intra-faculty administrative, executive or policy decision below the level of council and request a reconsideration for stated reason(s)." So far most of the cases that have come before the committee have resulted because of unsuccessful appeals by students to the Committee on Examinations.

The five member Ombudsman committee, made up of two students, two faculty members, and a chairman, who votes only in the event of a tie (he is also speaker of the Faculty Council) has heard four cases during the past year. Although the committee has supported only one case Prof. Hooper says all the students appearing before the committee have had the feeling that their case was fairly heard.

"So far all the decisions have been unanimous," notes Prof. Hooper, adding that all members share the common objective of attempting to insure an even handed justice to all.

Although the Ombudsman committee has no formal power, it can intercede on behalf of the individual student as its spokesman. To date all the committee's recommendations have been acted on by the administration.

The committee meetings are informal and are called only when a student has failed in his appeal to an administrative body and still wishes to pursue his complaint.

Prof. Hooper says he thinks the idea of such an independent body is a good idea on a campus with a large student body. He believes it helps the student with a legitimate complaint to put his case effectively before the administration.

A home for academics at first will house married students later

A new building for temporary academic use at Erindale College, under construction since last June, is almost complete, and students and faculty are now moving in.

The two-storey building, which cost \$382,000, is at the heart of the Erindale campus and contains 36 faculty offices, nine seminar rooms, and the student housing office.

Although some faculty members were already sharing office space earlier this year, Alexander Opalinski, manager of Physical Plant and Services at Erindale, says the real crunch on office space would have come next year. The College is anticipating a rise in student enrollment and along with it an increase in the

number of faculty. "Office space would have been impossible to find within the present space arrangement," he said.

Mr. Opalinski said the faculty offices would be housed in the new building temporarily. The building will eventually become a married students' residence and will also be used for commercial purposes.

"The bottom floor space will be rented out and will probably contain a variety store, bank, barber shop, hairdresser and dry cleaning facilities," Mr. Opalinski said. "The second floor faculty offices are now in what will be the bedroom, living room and kitchen of the residence. The changeover will be quite easy since the offices are already designed to serve this function."

Opinions sought on voting policy

The present policy of the University is *not* to exercise its proxy to vote at shareholders' meetings. The Business Affairs Committee of the Governing Council has appointed a Task Force to examine this policy. In this connection, submissions are invited from members of the University community. Two open meetings will be held at which the written briefs may be discussed: Tuesday, Nov. 19 and Tuesday, Nov. 26 in the Council Chamber, Simcoe Hall at 7:15 p.m.

All written briefs must be delivered to the Secretary, J.F. Brook, Room 232, Simcoe Hall, by 5 p.m. on the days before the meetings, so that a time-table may be drawn up.

DR. DAVID STRANGWAY, chairman of the geology department, who has been awarded the Kauffman Gold Medal of the Society of Exploration Geophysicists. The Kauffman medal, conferred for a significant contribution toward a most outstanding advancement in the science of geophysical exploration, was bestowed upon Dr. Strangway for his contribution to the geophysical aspects of the U.S. space program. The presentation was made at the annual international meeting of the Society in Dallas, Texas.

COMING EVENTS

Saturday 16 November

CANNONBALL — Rose-A Rock Group: Pete Tiedman and the Skyliners Stringband and the ever-present Lady Godiva Memorial Band: dress, semi-formal; admission \$6 a couple, available at the Engineering Stores. Faculty invited. Hart House. 8 p.m. to 1 a.m. (Engineering Society)

THEATRE — "Tis Pity She's a Whore" by John Ford. Hart House Theatre. 8.30 p.m. Until Nov. 23, except Sunday and Monday. Tickets \$3, students \$1.50 (Drama Centre)

LECTURE — "The Truth, the Whole Truth and . . ." Dr. Ralph S. Mills, Convocation Hall, 8.15 p.m. (Royal Canadian Institute)

DRAMA — "Comus — A Masque by John Milton, with the original music of Henry Lawes. Seely Hall, Trinity College. 8 p.m. Admission \$1.50, students \$1.

PARTY — Children's Santa Claus Parade Party. Faculty Club. 10 a.m. Restricted to members and their children.

Sunday 17 November

MUSIC — Carolyn Gundy, violinist, accompanist, Carol Birch, piano. Meeting Place, Scarborough College. 3.30 p.m.

LECTURE — Geography — "The Concept of the Flat Earth". Prof. Ali Tayyeb. S319 Scarborough College. 4 p.m. (Geography Scarborough)

LECTURE — "Orpheus Restored". Prof. Wilfrid Mellers, University of York, England. 116 Edward Johnson Building. 4.10 p.m. (SGS and Music)

COLLOQUIUM — Africa — "The Liberation of Mozambique and the Situation in South Africa". Prof. Bernard Magubane, Department of Anthropology, University of Connecticut. 202 Galbraith Building. 12 noon (African Studies Committee, ISP)

COLLOQUIUM — Computer — "The Design of Algorithms". Prof. John Hopcroft, Cornell University. 202 McLennan Physical Laboratories. 4 p.m. (SGS and Computer Science)

Monday 18 November

LECTURE — Medicine — "Action of Cyclic AMP in Bacterial Regulation". Dr. Robert Perlman, Department of Physiology, Harvard Medical School. 5227 Medical Sciences Building. 10 a.m. (SGS and Biochemistry)

LECTURE — Medicine — "Catecholamines Secretion by Isolated Adrenal Cells". Dr. Robert Perlman, Harvard. 4171 Medical Sciences Building. 4 p.m. (SGS and Biochemistry)

LECTURE — "Kafka and Prague". Prof. Ivan Svitak, Czech Marxist philosopher, California State University. 202 Galbraith Building. 2.10 p.m. (Russian and East European Studies)

TALK about Dutch group portrait painting by Prof. Robert Siebelhoff. S-143 Scarborough College. 4 p.m.

Tuesday 19 November

LECTURE — Medicine — "Event-related Slow Potentials in Psychiatry". Dr. M. Dongier, Allan Memorial Institute, McGill University. 2172 Medical Sciences Building. 5 p.m. (Neuroscience Institute and Toronto Neurological Society)

LECTURE — Medicine — "Lactase Deficiency: Genetic or Acquired?". Dr. David H. Alpers, Professor of Medicine, Chief, Division of Gastroenterology, Washington University, St. Louis. Small Lecture Theatre, Hospital for Sick Children. 12 noon. (Research Institute)

LECTURE — The Professor Edna W. Park Lecture: "On Treadmills to the Future". Dr. Ned L. Gaylin, Chairman, Department of Family and Community Development, College of Human Ecology, University of Maryland. Walter Hall, Edward Johnson Building. 8 p.m. (Household Science Alumnae Association)

COLLOQUIUM — Library Science — "Soul Theatre; Storytelling, Folksinging". Hugh Morgan Hill, "Brother Blue", Boston. FLS Lecture Theatre. 12 noon — 1 p.m. and 3-4 p.m. (FLS)

LECTURE — Art — "Democracy in the Painting of Frans Hals and Rembrandt". Prof. Robert Siebelhoff. S-143 Scarborough College. 4 p.m.

SEMINAR — "Analysis of the Symphony of Psalms". Prof. Wilfrid Mellers. 310 Edward Johnson Building. 11 a.m. — 1 p.m. (SGS and Music)

SEMINAR — Botany — "Photoevolution of H₂ in Algae Coupled to the Export of Reducing Power from Plastid to Cytoplasm". Dr. Martin Gibbs, Department of Biology, Brandeis University. 7 Botany Building. 4 p.m. (Botany)

COLLOQUIUM — Psychology — "Working Memory". Dr. Alan Baddeley, University of Cambridge. Lash Miller auditorium. 4 p.m. (Psychology and SGS)

MUSIC — Ernest Hills, guitar. Concert Hall, 273 Bloor St. West. 12.15 to 12.45 (Royal Conservatory of Music)

Wednesday 20 November

LECTURE — Law — The Seventh Annual Cecil A. Wright Memorial Lecture, "The Function of Discretion in Criminal Sentencing". Prof. Caleb Foote, University of California Law School, Berkeley. Moot Court, Faculty of Law. 4 p.m. (Law)

LECTURE — The Third Annual John Leeming Grogan Memorial Lecture in the History of Medicine. "Doctors Full of Phrases and Fame". Dr. W.E. Swinton. Osler Hall, Academy of Medicine (new north wing). 8.30 p.m.

LECTURE — Forestry — First of two Weyerhaeuser Lectures: "The Northern Forest of Tomorrow — Its Design in Culture and Yield". Dr. Stig O.A. Hagner, Chief, Forestry Operations, Svenska Cellulose Aktiebolaget, Sundsvall, Sweden. Fourth floor lounge, 203 College St. 2.10 p.m. (Forestry)

SEMINAR — Transportation — "Some Future Developments in Canadian Marine Transportation Policy". Roy Illing, Administrator, Canadian Marine Transportation Administration, Ministry of Transport, Ottawa. Faculty Lounge, S809 Ross Building, York University. 3 p.m. (U of T/York Joint Program in Transportation)

RADIO — "Islam — Law and Traditional Society". CJRT-FM (91.1) 10 a.m. and 7.30 p.m. (Islamic Studies and Open College)

Thursday 21 November

LECTURE — "The Pharmacology of Drug Dependence" series. "Clinical Pharmacology of Narcotic Analgesics". Dr. E.M. Sellers, Addiction Research Foundation. 33 Russell St. Auditorium. 12 noon to 1.30 p.m. (ARF)

COLLOQUIUM — Physics — "Terrestrial Spectroscopy". Prof. Freeman Gilbert, Scripps Institute of Oceanography, San Diego. 102 McLennan Physical Laboratories. 4.10 to 5.15 p.m. (Physics)

COLLOQUIUM — "Leopold Infeld, Albert Einstein, and the Dynamic of Scientific Collaboration". Lewis Peniston, Institut d'histoire et de sociopolitique des sciences, Université de Montreal. 597 Sidney Smith Hall. 4 p.m. Refreshments 3.30 p.m. (IHPS)

SEMINAR — Environment — "Environmental Impact Assessment: A Federal Point of View". Dr. Reid Loge, chairman, Environmental Assessment Panel, Environment Canada, 211 Haultain Building. 4 p.m. (Environmental Studies)

SEMINAR — Medicine — "Histone F2a, MESSENGER RNA: ISOLATION, Sequence Analysis and Evolution". Dr. Michael Grunstein, Department of Biological Sciences, Stanford University. 417 Best Institute. 12.30 p.m. (Banting and Best)

MUSIC — The Waverly Consort performs "Las Cantigas de Santa Maria" — music and verse in the medieval court of King Alfonso "The Wise". MacMillan Theatre, Edward Johnson Building. 8.30 p.m. Tickets \$4, students \$2 with I.D. (Music)

MUSIC — Recital by Diane McIntosh, pianist, lecturer and composer, will comment and perform all Canadian program. Walter Hall, Edward Johnson Building. 2.10 p.m. No tickets (Music)

MEETING — University Arts Women's Club. "The Affirmative Note in Canadian Literature". Dr. Claude Bissell. St. Thomas Church Parish Hall. 383 Huron St. 1.15 p.m.

MEETING — Biology Club — "Ethical Problems in Reproductive Technology". Prof. Barry Brown, SMC. 432 Ramsay Wright Zoological Laboratories. 7.30 p.m.

Friday 22 November

LECTURE — Forestry — Second Weyerhaeuser Lecture: "Canada's International Role in Forestry". John Bone, Director General, Special Advisers Division, Canadian International Development Agency, Ottawa. Fourth Floor lounge, 203 College St. 12.15 p.m. (Forestry)

LECTURE — Medicine — Lloyd Morgan Lecture by Dr. Andrew McCormick. Large Lecture Theatre, Toronto General Hospital. 10 to 11 a.m. (Ophthalmology)

MEETING — Renaissance — "Aspects of Renaissance Biology". Prof. F.D. Hoenger, U of T. South Dining Room, Hart House. 8 p.m. (Toronto Renaissance and Reformation Colloquium)

DANCE PROGRAM — Campus performance groups in modern jazz dance, international folk dance, contemporary dance. Benson Building, 320 Huron St. 8.30 p.m. Free (Women's Athletics and Physical Education)

SKYWATCHING (weather permitting). The public is invited to join the astronomers of Scarborough College on the roof. Films in S-309. 7.30-9.30 p.m.

DINNER — Faculty Club Buffet Sea Food Party. Reception 5.30 p.m. Buffet 6.30 to 8 p.m.

Saturday 23 November

LECTURE — "The Iceland Volcanic Eruption, 1973". Dr. Maurice B. Lambert, Geological Survey of Canada, Department of Energy, Mines and Resources. Convocation Hall. 8.15 p.m. (Royal Canadian Institute)

Sunday 24 November

MUSIC — Jean Edwards, soprano, accompanied by Nancy Antonacci, piano. Meeting Place, Scarborough College. 3.30 p.m.

SERVICE — Massey College Vespers Service: Music by Bryant, Howells and Boyce. Chapel. 5 p.m. Visitors welcomed.

Monday 25 November

PROGRAM — Breast self examination; continuous film demonstration of self-examination of breast cancer; physicians and mastectomy patients to answer questions. Medical Sciences Building campus lobby, first floor. Nov. 25, 26, 27, 28 and 29, between noon and 2 p.m. (Medical Society (Undergraduate) and Canadian Cancer Society)

Business may need new guidelines for relations with government

The changing relationship between government and business will be the subject of an important seminar, to be held in Toronto on Nov. 25 and 26, and developed by the Faculty of Management Studies in co-operation with P.S. Ross and Partners, management consultants.

The "Issues at the Interface" the seminar will provide a review and discussion of the problems and benefits to business corporations which have arisen from the increasing government concern with management of the economy and the quality of life.

The interaction between business and government may now need new guidelines, and the seminar is specially designed for business leaders and government representatives responsible for government and corporate policies at all levels.

The program will include sessions on business/government relations in Canada, the U.S. and Sweden; the value of a business/government exchange program; the problems of business caught between differences in provincial and federal laws

Church and society at history conference

"Church and Society in Catholic Europe of the 18th Century" is the title of a conference sponsored by the Department of History being held Nov. 22 and 23 in the Croft Chapter House.

The first session, at 4 p.m. on Friday, Nov. 22, will be "The Church in the Iberian Kingdoms"; the chairman will be Prof. Harvey Mitchell, University of British Columbia. This will be followed by a reception at 6.30 p.m. in the Music Room of Hart House.

The second session, at 9.30 a.m. on Saturday, Nov. 23, is entitled "The Church in France and Italy"; the chairman will be Prof. Roger Clark of Memorial University. The third session, at 2.30 p.m. on Saturday, will be "The Church in the Hapsburg Lands" under the chairmanship of Prof. David Smith, Victoria College.

The conference will conclude with a discussion by all the participants on "The Church, Society and Enlightenment". Registration fee for the conference is \$2. Those planning to attend may register in advance with Prof. W.J. Callahan, Department of History. (Sidney Smith Hall 5002)

Teaching program at MSB for detection of cancer

The Medical Society (undergraduate) and Canadian Cancer Society are presenting a special program to teach breast self-examination from Monday, Nov. 25 to Friday, Nov. 29, 12 noon to 2 p.m. daily, in the campus lobby (first floor) of the Medical Sciences Building.

There will be a continuous film demonstration of self-examination for breast cancer. Physicians, and patients who have undergone mastectomy, will be present to answer questions. Those attending can go any time during the two hours and, if they wish, bring their lunch. Everyone is welcome.

Research News

Connaught Fund

Application forms for the Connaught Fund are now available from ORA in Simcoe Hall, room 115. Please call 928-2163 for further information. Those who have already requested the forms will be receiving them automatically.

Use of Canada Council
General Grant Fund for travel

The October meeting of the Humanities and Social Sciences Committee of the Research Board agreed to allocate approximately one-third of the Canada Council general grant fund for travel - only grants to conferences in which faculty are actively participating. It is intended to replace almost exactly the former travel grants program operated by the Canada Council itself. The most important conditions are that the conferences must be outside the United States or Canada, that only the costs of travel will be allowed, and that there must be some evidence of active participation by the faculty member applying.

Applications should be in the form of a letter explaining the significance of the conference, the travel cost and providing some evidence of active participation. The letter should be addressed to Prof. N. Zaccour, Chairman, Humanities and Social Sciences Committee, at ORA.

The role of women in the economy

The Canada Department of Manpower and Immigration is offering a limited number of grants to further research on the role of women in the labour force and the adjustment of women immigrants in Canadian society. The grants, generally not exceeding \$10,000, cover normal research expenses but do not include stipend for salaried personnel.

Applications will be considered at two meetings and should reach ORA by Dec. 3 or Aug. 1 in order to arrive in Ottawa by the deadline. Additional information is available from ORA at 928-2874.

NIH Research
Career Development Program

The NIH is currently accepting applications in the research career development program. Awards in this program are for individuals with clear research potential who require additional training and experience in a productive scientific environment in preparation for careers in independent research. Institutions may apply for awards on behalf of individuals who have had three or more years of relevant postdoctoral experience. The candidate must be a citizen or national of the U.S. and should be not more than ten years beyond the attainment of the last health professional doctoral degree.

Applications must be received at NIH no later than Jan. 2, 1975 for the current competition. Forms are available from NIH. Consult ORA for further information.

NRC Research Associateships

Beginning April 1, 1975, NRC will offer research associateships tenable in its laboratories, to give promising young scientists and engineers an opportunity to work on challenging research problems. Applicants should possess at least a Ph.D. in natural sciences or a master's degree in engineering, or expect to obtain the degree before taking the award. Preference will be given to Canadians. An award will consist of salary, staff benefits and a travel allowance. Applications must be made on special forms obtained from the research associates office at NRC.

NATO Science Committee

Funds are available from the NATO Science Committee under the research grants program and the advanced study institutes program. At the June meeting of the committee, 87 research grants were awarded out of 110 applications, and 25 grants were made for advanced study institutes, out of 52 applications.

Additional information concerning these programs is available at ORA. Application forms may be obtained from: Scientific Affairs Division, NATO, 1110 Brussels, Belgium.

APUS protests to Mr Auld

The Association of Part-time Undergraduate Students has protested to the Hon. James Auld, Minister of Colleges and Universities, the absence of representation for part-time students on the new Ontario Council of University Affairs. In an open letter to Mr. Auld, Mrs. Norma Grindal, president of the APUS, said that, although she was speaking for part-time students at U of T, "we believe that we are also speaking for the part-time undergraduates from all Ontario universities" and added that, "if you have overlooked our representation on the OCUA because of representation by population, may we ask you to look again at the number of part-time undergraduates in Ontario."

Futurists look ahead, behind

Continued from Page 1

to "attitudes and sensitivities which could create racial strife in Canadian cities. Prediction, in other words, is a way of influencing what will happen."

The question of choice in our future was emphasized by the fourth panelist, Sir John Lawrence, of New College, Oxford, editor of the *Church of England quarterly "Frontier"*. "Everything you do your life closes off certain options, and this applies to society as well as individuals," he said. "Why are we here? (at the meeting). It seems to me we have seen the future and it doesn't work. One thing that we cannot do is go on the way we are."

What is the role of the university in relation to the future? "Much, if not all knowledge... is thought to be relevant to the future" said Dr. Dator. "Education is future oriented." Marshall McLuhan disagreed. We are moving "hundreds of years a decade in our knowledge" he said. This means that present studies are "fantastically obsolete... No credits you pick up from any university will have the slightest relevance by the time you receive them." Sir John Lawrence went further. "Most of what you're taught at college is not earthy use anyway and never was."

Organizer and moderator of the symposium, Dr. Bob Logan, of the Department of Physics, invited interested people to discuss the issues raised, and urged anyone concerned with further action to join the Club of Gnu to consider future activities. One spinoff already, he announced at Tuesday's session, was the decision to start an interdisciplinary symposium course, "Introductions to Futuristics." This would be held on Thursdays at 4 p.m., beginning Nov. 21 in New College. If the present is indeed a guide to the future, it seems the Club of Gnu will have a most successful one.

CLIFFORD C. PITT, president of the Ontario College of Art, has been appointed director of the Ontario Institute for Studies in Education, effective next summer. The term of office will be five years. Dr. R.W.B. Jackson, the Institute's director since its founding, will retire June 30.

Mrs. Vivian McDonough, president of U of T Alumni Association, lays wreath, assisted by Group Captain G.F. Gross, Engineering Alumni Association. At the right is Rev. William McKeachie, Hart House chaplain.

The time of silent remembrance

At Soldiers' Tower, on Remembrance Day, as the large gold hands of the clock approached the time for silence, one of the older men commented that "It's not like it used to be." In bygone years the roads and lawn around the tower were packed with people gathered to remember loved ones and friends and countless others who had been brought together in a common cause, and sometimes died for it.

Yet the presence of the chaplain of Hart House in his robes represented a partial revival of past ceremony, and it may have been thoughts engendered by the sheer simplicity of the occasion that caused the three hundred odd persons present to continue their contemplation for a full five minutes in silence, shattered only by the periodic thunder of saluting guns in nearby Queen's Park.

Later, many climbed the stairs of Soldiers' Tower to visit the Muniment Room over the arch. Some 18 feet square, it houses the relics and memorabilia of past wars in which students and staff of the University have played their parts, dating back to the Fenian Raids, the North-West Rebellion, and the Boer War. The idea of such a museum itself dates back to 1919, and is now being further developed with the encouragement of the University of Toronto Alumni Association.

Graduate School seeks Assistant Dean

The Council of the School of Graduate Studies has established a committee to recommend a successor to the present Assistant Dean whose second term ends next June 30. The committee consists of:

Prof. Anne Saddlemeyer (Division I), Prof. J. Spelt (Division II), Prof. S.H. Smith (Division III), Prof. G.H. Beaton (Division IV), F. McIntyre (Division II, G.S.U. president), D.W.H. Ellis (Division III, graduate student), and Dean A.E. Safarian (Chairman).

The Assistant Dean's responsibilities include those of budget officer for the calendar committees, preparation of reports on such matters as enrolment and student support, and advising the School and the University on a wide variety of other matters. The term of appointment is for three years, renewable once. Any member of the committee would be pleased to receive recommendations.

Safety courses cancelled due to lack of participation

The previously announced schedule of first aid and safety management courses being offered by the University Safety Section have been cancelled due to lack of participation.

Those still interested in the St. John's Standard First Aid Course should call Mrs. Scotchmer at 928-8787.

The safety management program has been revised into individual two hour seminars in order to reduce the time commitment. The subjects being offered are "Safety Legislation," "Management Responsibility," "Accident Investigation" and "Preventive Action." Those still interested in this program should call Nick Rivers-Moore at 928-8787.

Accommodation

For rent spacious four-bedroom back-split house in Don Mills, available Jan. to Aug. 1975. Furnished; large family room with fireplace; modern kitchen with dishwasher and garbage disposal; finished basement with washer, dryer; quiet neighbourhood close to all schools, shopping centre and TTC; 20 minute drive to St. George campus; rent negotiable with references. Telephone 928-5191 (weekdays) and 449-7579 (evenings and weekends).

Furnished three-bedroom townhouse for rent from Dec. 1 until end of March; outdoor parking; Don Valley Parkway and Lawrence; \$325 a month includes utilities. 445-0849.

Accommodation required for professor, wife, and four well-behaved children (ages 3 to 10), visiting Toronto from mid-November 1974 for one year. References supplied on request. Please call Marion Wood, 928-5422.

Wanted: garage space for 20 foot boat. Call 928-6227 or 231-3108.

Spacious fully-furnished house for rent in Agincourt; half-hour by car or 45 minutes by commuter train to St. George Campus. Four-bedroom back-split; two and one-half bathrooms; large family room with fireplace; schools, shopping centres, etc. nearby. Large fenced back yard and quiet street, particularly suitable for children. Available from Dec. 15, 1974, or Jan. 1 1975, to Aug. 31, 1975. \$475 monthly rental (negotiable with references). 928-5226, 284-3231, or 291-8316.

Financial guides available

A limited number of copies of *A Guide to Financial Planning* by W. Charles Hebbon, Research Director, Financial Planning, OCUFA, is still available.

Anyone interested in receiving a copy should telephone 964-8417.
